Clemente's Anatomy Dissector Carmine D. Clemente

Clemente's Anatomy Dissector, Third Edition, is a comprehensive manual of anatomical dissection, organized into 38 chapters covering small, discrete areas of the human body. Each chapter is designed to stand alone, so that instructors can easily adapt the material to their preferred dissection sequence.

The book provides more in-depth and detailed explanations for each dissection than any other lab manual, enabling students to self-teach. It correlates surface anatomy to anatomical structures revealed in the dissections, which is important for clinical correlation. Every page is cross-referenced to the newest editions of Clemente's, Grant's, Netter's and Rothen's anatomy atlases.

A companion website offers full text online.

From reader reviews:

Margaret Williams:

In this 21st centuries, people become competitive in most way. By being competitive right now, people have do something to make these people survives, being in the middle of the particular crowded place and notice by means of surrounding. One thing that often many people have underestimated this for a while is reading. That's why, by reading a e-book your ability to survive improve then having chance to remain than other is high. For yourself who want to start reading any book, we give you this particular Clemente's Anatomy Dissector book as beginning and daily reading publication. Why, because this book is usually more than just a book.

Ethel Davidson:

Reading a publication tends to be new life style in this era globalization. With studying you can get a lot of information that may give you benefit in your life. With book everyone in this world can share their idea. Ebooks can also inspire a lot of people. Lots of author can inspire their very own reader with their story or even their experience. Not only the story that share in the textbooks. But also they write about the data about something that you need instance. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors nowadays always try to improve their talent in writing, they also doing some research before they write to the book. One of them is this Clemente's Anatomy Dissector.

Barbara Figueroa:

This Clemente's Anatomy Dissector is great e-book for you because the content that is certainly full of information for you who else always deal with world and get to make decision every minute. This book reveal it data accurately using great organize word or we can claim no rambling sentences within it. So if you are read the item hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but tough core information with splendid delivering sentences. Having Clemente's Anatomy Dissector in your hand like finding the world in your arm, details in it is not ridiculous one. We can say that no publication that offer you world with ten or fifteen second right but this e-book already do that. So , this can be good reading book. Hey there Mr. and Mrs. hectic do you still doubt that?

Susan Demar:

Do you like reading a publication? Confuse to looking for your best book? Or your book ended up being rare? Why so many issue for the book? But any kind of people feel that they enjoy for reading. Some people likes reading, not only science book and also novel and Clemente's Anatomy Dissector or others sources were given expertise for you. After you know how the truly great a book, you feel would like to read more and more. Science e-book was created for teacher as well as students especially. Those publications are helping them to put their knowledge. In some other case, beside science publication, any other book likes Clemente's Anatomy Dissector to make your spare time a lot more colorful. Many types of book like here.
