Seeing in the Dark: Claim Your Own Shamanic Power Now and in the Coming Age Colleen Deatsman
The word “shaman” means “one who sees in the dark.” Shamans consciously choose to live in two different worlds at the same time. They have one foot here in the everyday world and one foot in the world of the spirits. The fact is, we all live in these two different worlds, but are commonly not aware of the other, less visible one. This world does not exist in some other place, but is right beside us, just outside of our usual perceptions. *Seeing in the Dark* is a definitive source for personal shamanism and not only provides the tools and techniques of the shaman, but presents the wisdom tradition, awareness paradigm, and shamanic way of life. The powerful shamanic path has weathered the cataclysmic changes of over 50,000 years of human history and is even more vital and relevant today. In times when stress, tension, and the fast pace of life overwhelm us, this path shows us how to slow down, reconnect to the sacred, and harness our personal power—skills that will be needed for the uncertain days ahead. Included in this book are over 100 easy-to-follow exercises that teach important survival skills for the coming changes of 2012 and beyond.
