Chinese Capitalism in a Global Era: Towards a Hybrid Capitalism (Routledge Advances in International Political Economy) Henry Wai-Chung Yeung

Chinese Capitalism in a Global Era examines the dynamic ways in which millions of ethnic Chinese in East and Southeast Asian economies organize their economic activities. It analyses how Chinese capitalism has changed under conditions of contemporary globalization and anticipates what the future holds for it. The book challenges the conventional notion of Chinese capitalism as 'crony capitalism', based around kinship networks and untouched by globalization.
