Through a refreshing blend of theory and practice this book provides stimulating material to develop creative approaches to science in the classroom. It includes:

- a range of teaching approaches that relate directly to the topic under discussion
- examples of pupils' work that portray how theory can be translated into practice
- quick off-the-shelf example model lesson plans which can be adapted.

User-friendly and clearly laid out this book is a core text for primary teachers, NQTs and students who want to inject some creativity into their teaching and put that "WOW" factor back into their science lessons.
