The Heart of Virtue

Donald DeMarco

The Heart of Virtue Donald DeMarco

This book brings to life in an inspirational and memorable way what is at the core of every true moral virtue, namely, love. It presents twenty-eight different virtues and reveals, through stories that personify these virtues, how love is expressed through care, courage, compassion, faith, hope, justice, prudence, wisdom, etc... It is a treatment of virtue that is both unique and original. It is unique in that virtues are both illustrated in story form and explained through philosophical analysis. It is original in that many of the stories have never before appeared in print.

This book is a veritable liberal education in itself, bringing together in a carefully balanced and readable manner, distinguished personalities from diverse enterprises and periods of history. It literally sparkles with celebrities recruited from science and the arts, philosophy and theology, medicine and religion, stage and screen, sports and entertainment. But the book does not ignore the relatively unknown who provide several human interest stories that are both moving and unforgettable.
