The twelfth annual Current Research in Egyptology symposium aimed to highlight the multidisciplinary nature of the field of Egyptology. Papers in these proceedings reflect this multidisciplinary nature, with research based on Archaeology, Linguistics, Cultural Astronomy, Historiography, Botany, Religion and Law, amongst others. By means of one or several of these disciplines, contributors to this volume approach a broad range of subjects spanning from Prehistory to modern Egypt, including: self-presentation, identity, provenance and museum studies, funerary art and practices, domestic architecture, material culture, mythology, religion, commerce, economy, dream interpretation and the birth of Egyptology as a discipline.
