New Month, New Moon Allison Ofanansky

It's Rosh Chodesh, the beginning of a new month in the Jewish calendar! In celebration of this monthly event, a family goes out to the Negev Desert to camp out and observe the moon. A photo essay about the changing phases of the moon and their relationship to the Jewish calendar, this beautifully photographed book explains the basics of the Jewish calendar, which is based on the moon rather than the sun. Instructions for building a papier mâché moon are included. This book is the fifth in Kar-Ben's "Nature in Israel" holiday series by this author/photographer team.

This is a fixed-format ebook, which preserves the design and layout of the original print book.
