## Computer-Aided Scheduling of Public Transport (Lecture Notes in Economics and Mathematical Systems)

This proceedings volume consists of selected papers presented at the Eighth International Conference on Computer-Aided Scheduling of Public Transport (CASPT 2000), which was held at the conference center of the Konrad Adenauer-Foundation in Berlin, Germany, from June 21 to 23, 2000. The CASPT 2000 is the continuation of a series of international workshops and conferences presenting recent research and progress in computer-aided scheduling in public transport. Previous workshops and conferences were held in • Chicago (1975), • Leeds (1980), • Montreal (1983 and 1990), • Hamburg (1987), • Lisbon (1993) and • Cambridge, Mass. (1997).<sup>1</sup> With CASPT 2000, our series of workshops and conferences celebrated its 25 anniversary. Starting with a Workshop on Automated Techniques for Scheduling of Vehicle Operators for Urban Public Transportation Services in 1975 the scope and purpose has broadened since and still continues to do so. The previous workshops and conferences were focused on public mass transit, and while this remained the primary focus of the 2000 conference, it included also computer-aided scheduling methods being developed and applied in related means of passenger transport systems. Commonalities regarding operations research techniques such as, e.g., column generation techniques and 1 While there were no formal proceedings for the first workshop but only a printed copy of all papers issued to participants on arrival, the subsequent ones are well documented as follows: Wren, A. (Ed.) (1981). Computer Scheduling of Public Transport. North Holland, Amsterdam.

### **From reader reviews:**

#### **Jonathan McLean:**

Is it you who having spare time after that spend it whole day simply by watching television programs or just lying down on the bed? Do you need something new? This Computer-Aided Scheduling of Public Transport (Lecture Notes in Economics and Mathematical Systems) can be the answer, oh how comes? A book you know. You are thus out of date, spending your extra time by reading in this completely new era is common not a geek activity. So what these books have than the others?

#### **Elsie Port:**

Don't be worry for anyone who is afraid that this book will probably filled the space in your house, you may have it in e-book method, more simple and reachable. This specific Computer-Aided Scheduling of Public Transport (Lecture Notes in Economics and Mathematical Systems) can give you a lot of pals because by you checking out this one book you have issue that they don't and make you more like an interesting person. This specific book can be one of one step for you to get success. This reserve offer you information that might be your friend doesn't understand, by knowing more than various other make you to be great men and women. So , why hesitate? Let me have Computer-Aided Scheduling of Public Transport (Lecture Notes in Economics and Mathematical Systems).

#### **Tamica Harris:**

As a student exactly feel bored to reading. If their teacher questioned them to go to the library or to make summary for some book, they are complained. Just tiny students that has reading's spirit or real their interest. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading really. Any students feel that reading through is not important, boring in addition to can't see colorful pics on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Computer-Aided Scheduling of Public Transport (Lecture Notes in Economics and Mathematical Systems) can make you truly feel more interested to read.

#### **Jennifer Valdovinos:**

What is your hobby? Have you heard in which question when you got pupils? We believe that that query was given by teacher with their students. Many kinds of hobby, Everyone has different hobby. And you know that little person such as reading or as examining become their hobby. You should know that reading is very important as well as book as to be the matter. Book is important thing to provide you knowledge, except your current teacher or lecturer. You see good news or update concerning something by book. Amount types of books that can you go onto be your object. One of them is niagra Computer-Aided Scheduling of Public Transport (Lecture Notes in Economics and Mathematical Systems).
