## **El yo y la máquina (Biblioteca Palabra) (Spanish Edition)** Diego Martínez Caro

Las relaciones entre la mente humana y su sustrato físico, el cerebro, constituyen un misterio que, aún hoy, se plantea con una fuerza e interés renovado. Los increíbles avances en el conocimiento de la actividad cerebral proporcionado por la moderna Neurociencia ha hecho pensar a algunos que este misterio se encuentra a las puertas de su resolución. ¿Es esto cierto y en qué sentido? ¿Pueden las neurociencias dar vía libre a la explicación materialista que reduce la mente al cerebro o sucede más bien lo contrario?

A su vez, la emergencia de la nueva disciplina de la inteligencia artificial ha replanteado los términos del problema postulando un nuevo tipo de mente no conectada con el cerebro humano que, en la versión radical de la cibernética punk, permitiría afirmar que, a finales del siglo, el pensamiento humano y la inteligencia artificial se habrán fundido y los ciberorganismos resultantes de la fusión controlarán las sociedades. La complejidad y novedad de las cuestiones en juego requería una difícil puesta a punto de este antiguo problema que ha sido abordada con eficacia por Diego Martínez Caro que, en este texto, expone con rigor y amenidad los últimos avances científicos al mismo tiempo que proporciona una interpretación antropológica.
