## **Zdenek Kopal's Binary Star Legacy** Horst Drechsel, Miloslav Zejda

An international conference entitled 'Zdenek Kopal's Binary Star Legacy' was held on the occasion of the late Professor Kopal's 90th birthday in his home town of Litomyšl/Czech Republic and dedicated to the memory of one of the leading astronomers of the 20th century. Professor Kopal, who devoted 60 years of his scientific life to the exploration of close binary systems, initiated a breakthrough in this field with his description of binary components as non-spherical stars deformed by gravity, with surfaces following Roche equipotentials. Such knowledge triggered the development of new branches of astrophysics dealing with the structure and evolution of close binaries and the interaction effects displayed by exciting objects such as cataclysmic variables, symbiotic stars or X-ray binaries. Contributions to this conference included praise of the achievements of a great astronomer and personal reminiscences brought forward by Kopal's former students and colleagues, and reflected the state of the art of the dynamically evolving field of binary research, which owes so much to the pioneering work of Zdenek Kopal.

### From reader reviews:

#### **Robert Rios:**

Do you have favorite book? In case you have, what is your favorite's book? Publication is very important thing for us to know everything in the world. Each guide has different aim or maybe goal; it means that book has different type. Some people really feel enjoy to spend their time for you to read a book. They can be reading whatever they consider because their hobby is reading a book. Think about the person who don't like studying a book? Sometime, man feel need book whenever they found difficult problem or exercise. Well, probably you should have this Zdenek Kopal's Binary Star Legacy.

#### **Mae Saari:**

The publication with title Zdenek Kopal's Binary Star Legacy includes a lot of information that you can study it. You can get a lot of benefit after read this book. That book exist new understanding the information that exist in this guide represented the condition of the world right now. That is important to yo7u to know how the improvement of the world. This kind of book will bring you within new era of the the positive effect. You can read the e-book on your own smart phone, so you can read this anywhere you want.

#### **Paulette Cantu:**

Reading can called mind hangout, why? Because while you are reading a book specially book entitled Zdenek Kopal's Binary Star Legacy the mind will drift away trough every dimension, wandering in every aspect that maybe unidentified for but surely will become your mind friends. Imaging every single word written in a guide then become one contact form conclusion and explanation this maybe you never get prior to. The Zdenek Kopal's Binary Star Legacy giving you one more experience more than blown away your brain but also giving you useful info for your better life on this era. So now let us explain to you the relaxing pattern this is your body and mind is going to be pleased when you are finished reading it, like winning a casino game. Do you want to try this extraordinary wasting spare time activity?

#### **Debbie Yarborough:**

Reading a book to become new life style in this 12 months; every people loves to read a book. When you study a book you can get a lots of benefit. When you read publications, you can improve your knowledge, since book has a lot of information onto it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your research, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, these us novel, comics, as well as soon. The Zdenek Kopal's Binary Star Legacy provide you with a new experience in reading a book.
