Informed Consent: Legal Theory and Clinical Practice Jessica W. Berg, Paul S. Appelbaum, Charles W. Lidz, Lisa S. Parker

Informed consent - as an ethical ideal and legal doctrine - has been the source of much concern to clinicians. Drawing on a diverse set of backgrounds and two decades of research in clinical settings, the authors - a lawyer, a physician, a social scientist, and a philosopher - help clinicians understand and cope with their legal obligations and show how the proper handling of informed consent can improve, rather than impede, patient care. Following a concise review of the ethical and legal foundations of informed consent, they provide detailed, practical suggestions for incorporating informed consent into clinical practice. This completely revised and updated edition discusses how to handle informed consent in all phases of the doctor-patient relationship, use of consent forms, patients' refusals of treatment, and consent to research. It comments on recent laws and national policy, and addresses cutting edge issues, such as fulfilling physician obligations under managed care.

This clear and succinct book contains a wealth of information that will not only help clinicians meet the legal requirements of informed consent and understand its ethical underpinnings, but also enhance their ability to deal with their patients more effectively. It will be of value to all those working in areas where issues of informed consent are likely to arise, including medicine, biomedical research, mental health care, nursing, dentistry, biomedical ethics, and law.

From reader reviews:

Ruth Graham:

Book is usually written, printed, or highlighted for everything. You can learn everything you want by a publication. Book has a different type. We all know that that book is important thing to bring us around the world. Adjacent to that you can your reading expertise was fluently. A book Informed Consent: Legal Theory and Clinical Practice will make you to become smarter. You can feel far more confidence if you can know about anything. But some of you think which open or reading a book make you bored. It's not make you fun. Why they are often thought like that? Have you searching for best book or suitable book with you?

Eduardo Baro:

Reading a reserve tends to be new life style within this era globalization. With reading you can get a lot of information that may give you benefit in your life. Together with book everyone in this world may share their idea. Guides can also inspire a lot of people. Many author can inspire their particular reader with their story or even their experience. Not only the storyplot that share in the guides. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors on this planet always try to improve their ability in writing, they also doing some study before they write for their book. One of them is this Informed Consent: Legal Theory and Clinical Practice.

Brian Rankins:

People live in this new day time of lifestyle always try and and must have the time or they will get lots of stress from both way of life and work. So , once we ask do people have spare time, we will say absolutely indeed. People is human not really a huge robot. Then we ask again, what kind of activity do you have when the spare time coming to you of course your answer will probably unlimited right. Then do you try this one, reading books. It can be your alternative within spending your spare time, the book you have read is definitely Informed Consent: Legal Theory and Clinical Practice.

Marsha Gleason:

Playing with family within a park, coming to see the marine world or hanging out with good friends is thing that usually you will have done when you have spare time, and then why you don't try issue that really opposite from that. Just one activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love Informed Consent: Legal Theory and Clinical Practice, you could enjoy both. It is excellent combination right, you still would like to miss it? What kind of hang-out type is it? Oh can occur its mind hangout people. What? Still don't understand it, oh come on its referred to as reading friends.
