Learning and Teaching in Primary Schools (Achieving QTS Series) Denis Hayes

This is an essential text for all primary trainees, covering the fundamental issues for learning and teaching in primary schools today. It motivates and challenges trainees at the same time as guiding them through the Standards for the Award of QTS. Chapters explore the major themes in teacher education, such as behaviour, communication and creativity, encouraging reflection on key questions and professional dilemmas. In addition, two key chapters provide specific advice to help trainees interpret and fully understand the standards, with strategies for successfully implementing them and demonstrating how each of the standards can be met.
