Ratner's Star (Vintage Contemporaries) Don DeLillo

One of DeLillo's first novels, **Ratner's Star** follows Billy, the genius adolescent, who is recruited to live in obscurity, underground, as he tries to help a panel of estranged, demented, and yet lovable scientists communicate with beings from outer space. It is a mix of quirky humor, science, mathematical theories, as well as the complex emotional distance and sadness people feel. **Ratner's Star** demonstrates both the thematic and prosaic muscularity that typifies DeLillo's later and more recent works, like *The Names* (which is also available in Vintage Contemporaries).
