*Make Creativity The Center Of The Curriculum!*

In our fast-changing world, the ability to think independently and innovatively is no longer a “nice extra”—it’s a survival skill. This book delivers surefire strategies for equipping learners across all grades and subjects with the motivation and critical thinking skills to thrive in our high-tech future.

Content includes:

- Why “one right answer” instruction paradigms discourage critical thinking and risk-taking
- Why merely using the latest technology class does not equate to teaching creatively
- Projects and prompts that ask the question “So what does this mean in the classroom today?”
